Using this document

In order to navigate this document easily please enable the bookmark tool view using the bookmark icon on the left of your screen:

The bookmark functions within the pdf allow easy navigation through large reports. Bookmarks can be clicked on like hyperlinks taking the user directly to the relevant section.

Those bookmarks with a plus sign next to them (+) can be expanded by clicking on the plus sign. You can minimise these entries again by clicking on the resulting minus sign (-).

In addition you can search through the document for any particular text by using the standard Microsoft shortcut (Ctrl + F) and enter the text you are looking for.

Interpretation of the data

- **Species maps:** The species maps show the location of protected, notable and Invasive non-native species grouped by taxon. The numbers in brackets adjacent to the species names relate to the grid ID shown on the maps. Records with a grid reference accuracy of 10m square or above are minimised to a 100m square. Where there are more than 100 grid IDs on a map the grid references will be minimised to 1km. The full grid reference can be found within the full record in this report or in the excel spreadsheet of raw data.
- **Attribute data:** Where available all attribute data is provided with the records. Sex and life stage information as well as the record type all allow greater interpretation of information available. However it is not always possible to provide this information.
- **Species designation Status:** The species designation information provided within this enquiry output is based on the best available information provided through the JNCC: *Conservation designations of UK Taxa* list. Information on the limitations to this list is available here: (<http://jncc.defra.gov.uk/page-3408>)
- **Site/habitat data:** Due to changes in the NBN web services we are currently unable to provide site and observation data from the NBN, this does not affect local sites. Information for statutory sites can be found at <http://www.natureonthemap.naturalengland.org.uk/MagicMap.aspx> and sites and NBN taxa observations at <https://spatial.nbnatlas.org>. (please be aware of the NBN Atlas guidance for using data <https://nbnatlas.org/help/guidance-using-data/>).

Designated Species Summary

Taxa	Designation Name	Occurrence in Cheshire tetrads between 2008-2019 (%)	Occurrence in Cheshire tetrads all years (%)
Common Pipistrelle (Pipistrellus pipistrellus)	Wildlife and Countryside Act - Schedule 5, NERC S41, Conservation (Habs and Sp) Regulations 2010 - Schedule 2	43%	50%
Grey Partridge (Perdix perdix)	Local Biodiversity Action Plan Species, Birds of Conservation Concern [RSPB] - Red, NERC S41, UK BAP Priority Species	7%	58%
Japanese Knotweed (Fallopia japonica)	Invasive Non-Native Species, Wildlife and Countryside Act Schedule 9	19%	33%
Kestrel (Falco tinnunculus)	Birds of Conservation Concern [RSPB] - Amber	36%	79%
Mistle Thrush (Turdus viscivorus)	Birds of Conservation Concern [RSPB] - Amber	22%	80%
Pink-footed Goose (Anser brachyrhynchus)	Birds of Conservation Concern [RSPB] - Amber	10%	16%
Swallow (Hirundo rustica)	Birds of Conservation Concern [RSPB] - Amber	46%	86%
Swift (Apus apus)	Birds of Conservation Concern [RSPB] - Amber	23%	81%
Unidentified Bat (Myotis)	Wildlife and Countryside Act - Schedule 5, NERC S41, Conservation (Habs and Sp) Regulations 2010 - Schedule 2	22%	33%

Map

Species Summary Report

Species Grid Id Summary Report

BIRD

Taxon name	Grid ref. id
Mistle Thrush	1 (2017)
Kestrel	3 (2017)
Grey Partridge	2 (2017)
Swift	5 (2016), 7 (2016)
Pink-footed Goose	4 (2015)
Swallow	8 (2014), 9 (2012)

FLOWERING PLANT

Taxon name	Grid ref. id
Japanese Knotweed	6 (2009)

TERRESTRIAL MAMMAL

Taxon name	Grid ref. id
Common Pipistrelle	8 (2014)
Unidentified Bat	8 (2014)

Grid Id Species Summary Report

1 - [SJ551885]

Taxon group	Taxon name
BIRD	Mistle Thrush (<i>Turdus viscivorus</i>) (2017)

2 - [SJ552884]

Taxon group	Taxon name
BIRD	Grey Partridge (<i>Perdix perdix</i>) (2017)

3 - [SJ553888]

Taxon group	Taxon name
BIRD	Kestrel (<i>Falco tinnunculus</i>) (2017)

4 - [SJ554883]

Taxon group	Taxon name
BIRD	Pink-footed Goose (<i>Anser brachyrhynchus</i>) (2015)

5 - [SJ557886]

Taxon group	Taxon name
BIRD	Swift (<i>Apus apus</i>) (2016)

6 - [SJ5588]

Taxon group	Taxon name
FLOWERING PLANT	Japanese Knotweed (<i>Fallopia japonica</i>) (2009)

7 - [SJ564884]

Taxon group	Taxon name
BIRD	Swift (<i>Apus apus</i>) (2016)

8 - [SJ568884]

Taxon group	Taxon name
BIRD	Swallow (<i>Hirundo rustica</i>) (2014)
TERRESTRIAL MAMMAL	Common Pipistrelle (<i>Pipistrellus pipistrellus</i>) (2014), Unidentified Bat (<i>Myotis</i>) (2014)

9 - [SJ568887]

Taxon group	Taxon name
BIRD	Swallow (<i>Hirundo rustica</i>) (2012)

Local Sites

Local Wildlife Sites

There are no Local Wildlife Sites within this search area.

Regionally Important Geodiversity Sites

There are no Cheshire Regionally Important Geodiversity Sites within this search area

Statutory Sites

Due to changes to the NBN we are currently unable to provide Statutory Site location maps. You can access these by visiting the NBN Atlas <https://spatial.nbnatlas.org> or MagicMap <http://www.natureonthemap.naturalengland.org.uk/MagicMap.aspx> (please be aware of the NBN Atlas guidance for using data <https://nbnatlas.org/help/guidance-using-data>).

Other Sites of Conservation Interest

There are no Other Sites of Conservation Interest within this search area.
