Jennifer

I have reviewed the recently updated/additional information including the Archaeological Landscape report and confirm that I have no further comments to make in addition to my responses on the 31 March and 22 June.

Hi Ian,

I think the changes are more associated with some landscape changes and river alignment changes. Let me check the plans to see how they have influenced the positioning of any buildings. It hasn't change the height of them though or what is actually being proposed.

Regards

Jenny

Jennifer

Can you give me a short summary of any changes likely to impact on the heritage? Or is it just further clarification/amendments of the written reports?

Please let me know because as I have explained in my previous comments the likely impacts on the surrounding heritage is low.
